Instructions:

✓ Fill out the items below. Write your answers in complete sentences in your own and cite the documents that you've used to support your answers. Attach company profile or annual report, income statement, balance sheet, cash flow statement, market trend reports and industry news, stock performance charts and analysis reports, and other related documents to support your presentation in separate sheets to this document.

1. What are the names of the companies your collab teams selected for benchmarking your proposal? (Preference for local companies)	
2. What problems do these companies aim to solve, and how do they use software or apps to solve them?	
3. Why did your team choose these companies as benchmarks for your project?	
4. What is the background or context of each company?	
5. How do these companies earn income or measure their success?	
6. What are the key features or strategies of these companies that your team can benchmark for your project proposal?	
7. How does the context of each company (such as location, culture, or technology) affect their success?	
8. What data or references did your team use to support your benchmarking?	
9. Based on your benchmarking, what improvements or new features will you add to your project proposal?	
10. How will your team present your benchmarking findings and proposed project improvements?
