Mejia, Jonathan Lorenz

Quisora, John Anthony

Siapno, Katrina

Narrative Report

In the meeting, we discussed how we are going to show the issues in our planet. Also we discussed on how we are going to shoot the clips so it became realistic.

Our Plan:

We are going to address the issues of our planet, our home is in crisis caused by human activities. Then we will show scenes of people engaging in environmentally-friendly activities, such as recycling and planting trees.

Preparation:

In preparation in making environmental awareness video we are currently discussing to our group chat where we can shoot videos on what we have planned so all the clips that will put is realistic and accurate in the said topic.

Conclusion:

In conclusion, we will try to shoot it in Sunday and so if there are some changes we have time to make it and so we have a lot of time to edit the clips so we can rest afterwards
