Manager's Role Match-Up
Concept Map
Pest-Swot Analysis

Set A: Manager's Role Match-Up

Directions: Match each managerial scenario in **Column A** with the correct managerial role category in **Column B**. Write the letter of your answer on the line provided. *(10 points each)*

Column B Options:

- A. Interpersonal: Figurehead
 - B. Interpersonal: Leader
 - C. Interpersonal: Liaison
 - D. Informational: Monitor
 - E. Informational: Disseminator
 - F. Informational: Spokesperson
 - G. Decisional: Entrepreneur
 - H. Decisional: Disturbance Handler
 - I. Decisional: Resource Allocator
 - J. Decisional: Negotiator
1. A A CEO represents the company by cutting the ribbon at a new office branch opening.
 2. B A department manager conducts performance reviews to motivate and guide team members.
 3. C An operations manager coordinates work between the marketing and production teams.
 4. D A project manager reviews industry news daily to track emerging technology trends.
 5. E A supervisor passes safety guidelines directly to frontline employees during a team meeting.

6. F A PR director gives a live television interview regarding the company's new sustainability goals.
7. G An executive approves a budget to launch an innovative product line based on market research.
8. H A floor manager mediates a conflict between two employees to restore workplace harmony.
9. I A manager decides how to distribute the annual equipment budget across three departments.
10. J A procurement lead meets with a vendor to bargain for lower unit prices on raw materials.

Set B: Concept Map

Directions: Complete the missing concept map components by identifying the correct management function, term, or tool based on the description provided. (10 points each)

1. **Concept:** Setting organizational goals and defining strategies to achieve them.
Missing Term: Planning
2. **Concept:** Structuring tasks, grouping jobs, and allocating resources to execute plans.
Missing Term: Organizing
3. **Concept:** Inspiring, guiding, and directing employees toward achieving team goals.
Missing Term: Leading
4. **Concept:** Monitoring performance, comparing results to standards, and taking corrective action.
Missing Term: Controlling
5. **Concept:** A visual diagram showing the reporting relationships and formal structure within a company.
Missing Term: Organizational Chart
6. **Concept:** The clear line of authority extending from top management to the lowest organizational levels.
Missing Term: Chain of Command
7. **Concept:** The number of employees a manager can efficiently and effectively supervise.
Missing Term: Span of Control

8. **Concept:** Transferring formal authority and responsibility for specific tasks to team members.

Missing Term: Delegation

9. **Concept:** Internal drives and external incentives that encourage employees to work efficiently.

Missing Term: Motivation

10. **Concept:** Standards or benchmarks against which actual business performance is evaluated.

Missing Term: Performance Standards

Set C: PEST-SWOT Analysis

Directions: Read each scenario below and identify the specific dimension of PEST (Political, Economic, Social, Technological) or SWOT (Strength, Weakness, Opportunity, Threat) it represents for an expanding retail company. Write your answer on the line provided. (10 points each)

1. The government imposes a 15% increase in import tariffs on imported goods.

Dimension: Political

2. Rising local inflation reduces consumer purchasing power across the target region.

Dimension: Economic

3. A shifting consumer preference toward eco-friendly and sustainably sourced products.

Dimension: Social

4. Widespread adoption of AI-powered checkout systems speeds up customer service.

Dimension: Technological

5. The company holds an exclusive 10-year patent on an efficient inventory tracking software.

Dimension: Strength

6. High employee turnover due to competitive wage offers in the local job market.

Dimension: Weakness

7. Opening an e-commerce channel to tap into a rapidly growing online shopping market.

Dimension: Opportunity

8. A new, well-funded national competitor moves into the same business district.

Dimension: Threat

9. Strong brand equity and high customer loyalty scores in the existing market.

Dimension: Strength

10. Outdated warehouse infrastructure causing shipping delays during peak sales periods.

Dimension: Weakness
