PREPARED BY:

ABRERA, BILLY JOE L.

SUBMITTED TO:

ENGR. ILDEFONSO MANUEL

MARCH 2026

Business Name: Solidbuild Construction Services

Address of the Business

Main office: San Vicente West, Urdaneta City, Pangasinan

Equipment Yard/Plant: Industrial Area, Barangay Anonas, Urdaneta City, Pangasinan

Organizational Structure

The organizational structure of SolidBuild Construction Services is designed to ensure efficient management, clear communication, and effective project execution. Each position plays a vital role in maintaining the quality and reliability of the company's services.

PROFESSIONAL ORGANIZATIONAL CHART

Board of Directors

Oversees the overall direction and major decisions of the company.

General Manager

Responsible for supervising daily operations and ensuring that all departments work in coordination.

Engineering Manager

Handles technical planning, design, and engineering requirements of projects.

Project Manager

Oversees on-site construction activities and ensures projects are completed on time and within budget.

Financial Manager

Manages budgeting, financial planning, and monitoring of company expenses and revenues.

Marketing Director

Promotes the company's services and builds relationships with clients.

HR Director

Manages recruitment, training, and employee welfare.

Purchasing Manager

Responsible for sourcing materials, equipment, and supplies needed for construction.

Operations of the Business

SolidBuild Construction Services operates through a systematic and client-centered approach to ensure the successful completion of every project. The company follows a structured process from initial consultation to final turnover.

The process begins with a **client consultation**, where the client's needs, budget, and timeline are carefully discussed. This is followed by the **planning and design phase**, where engineers and designers prepare detailed plans and cost estimates.

Once plans are approved, a **formal contract** is established to define responsibilities and expectations. The company then proceeds with **procurement**, where materials and equipment are carefully selected to meet quality standards.

During the **construction phase**, the project manager supervises daily operations, ensuring that work is completed efficiently and according to specifications. Strict **safety protocols and quality control measures** are implemented to protect workers and maintain high standards.

Finally, the project undergoes **inspection and evaluation** before being turned over to the client. The company ensures that all requirements are met and that the client is satisfied with the final outcome.

Business Plan

Vision

To be recognized as a leading construction company in Pangasinan known for delivering high-quality, reliable, and sustainable projects.

Mission

SolidBuild Construction Services is committed to providing excellent construction solutions by combining skilled workmanship, innovative practices, and efficient project management to meet and exceed client expectations.

Objectives

- To deliver durable and cost-effective construction services
- To build long-term relationships with clients
- To expand operations within and beyond Pangasinan
- To maintain high standards in safety, quality, and professionalism

Services Offered

- Residential construction
- Commercial building construction
- Renovation and remodeling services
- General construction and maintenance

Financial Portfolio

SolidBuild Construction Services is funded through a combination of owner's capital, bank financing, and project-based investments. The company carefully manages its financial resources to ensure sustainability and growth.

Sources of Income

- Residential and commercial construction projects

- Renovation and repair services

Estimated Financial Overview (Per Project)

- Estimated Revenue: ₱500,000
- Estimated Expenses: ₱350,000
- Estimated Profit: ₱150,000

Major Expenses

- Labor costs
